

HEAT BREAKS THE RECORD

Temperature Reaches a Climax in the Western States.

NO RAIN IN SIGHT

Crops Are Withered and Parched Under the Sun's Blasting Rays.

DEATH RATE SMALL

Another hot wave fiercer than any of its predecessors, swept over the scorched plains of the central west, adding woes to the already heavy burden of the farmers, causing prostrations and misery in the cities.

There is no let up today. Telegraphic advices are to the effect that the mercury still ranges near 100 in the states of the central west. There is still no sign of a let-up in the fierce heat and rain is not presently hoped for.

Swept by Burning Winds
The heat wave extends from the gulf into the upper peninsula of Michigan, and almost every town in Kansas, Missouri, Iowa, Nebraska, North Dakota, Wisconsin, Minnesota, and even as far west as Colorado, reports temperature of over 100 degrees, accompanied by burning winds.

Reports of ruined corn, burned up pastures, and blasted oat fields come from all parts of the central west, adding terror to the situation for the farmers. The drought in the central west has been almost unprecedented, and the reports say that the corn crop has already been damaged to the extent of fifty per cent., and, unless soaking rains come soon this damage will be greater.

Kansas City announces the most remarkable heated term in its history. For thirty-one days the temperature has risen above 90 every afternoon, and for the last twelve days the temperature has gone above 100 regularly. Since April 5 there has been but one heavy shower. The thermometers in the street registered 112 degrees of heat yesterday.

Heat Puts Stop to Work
Much suffering is reported among the farm laborers, and in many districts it is almost impossible to get the wheat crop harvested because men will not go into the harvest field during the hot weather. The railroads of the Northwest are also experiencing much trouble with laborers, the section gangs being unable to carry on their work. Several of the roads have put on relief gangs and given their forces shorter hours.

The heat wave prevailed over all of the drought-stricken region of the Southwest—Kansas, Western Missouri, Indian Territory, and Oklahoma. For the next twenty-four hours continued hot weather is expected.

Sunday Beat All Records
Chicago, July 22.—The American prints today a series of special dispatches from its correspondents throughout the western states on the crop prospects. They show that Sunday's heat on the western prairie lands beat all records. The growing corn that had previously withstood the long, parching, shriveled and crumpled in the sun's rays, were in great suffering among the live stock.

Not Over Half a Crop
Burlington, Ia., wires that the heat broke all records. Reports from farming localities show the hot wind has been doing serious damage to corn. Leading grain men estimate that Sunday's heat reduces the prospects for corn in the southern part of Iowa to half a crop.

Lincoln, Neb., says that the thermometer went above 105 at the local station of the government bureau. The heat of the last two days together has sealed the doom of the Nebraska corn crop. Farmers say that even with moisture immediately there could not be as much as half of a crop.

BALL GAME HERE SUNDAY AFTERNOON

Twenty-Five Dollars Was the Purse, and the Game Attracted a Large Crowd.

A ball game that attracted considerable attention was pulled off at Bunker Hill yesterday afternoon. Despite the hot sun and scorching winds a large crowd gathered to watch the game, which was at times quite exciting.

The match was for \$25 a side and was between the Bass Creeks and the All Germans of this city.

At the end of the ninth inning the Bass Creeks were victorious with nine tallies to their credit, while the All Germans could muster but five. The All Germans were re-inforced by a number of deaf mutes from Delavan who played good ball. In spite of all that could be done the Bass Creeks came out on top and copped the \$25.

DOCTOR CHLOROFORMS SNAKES

Montana Physician Saves His Life by Suffocating the Reptiles.

Ubet, Mont., July 22.—Dr. George Kent Sterling of this city saved his life last night after a remarkable experience with rattlesnakes. Dr. Sterling is often called at night to go into the mountain mining camps, and on such occasions uses a railroad velocipede. Last night he was obliged to leave his car and strike off across the country to reach his destination and after proceeding several miles found himself hemmed in by rattlesnakes. For a moment the physician was almost paralyzed with fear. Then a bright thought struck him. Within his reach was a piece of bark about three feet long. Wrapping his handkerchief about one end of the bark he saturated the cloth with chloroform from his medicine satchel. Then, cautiously poking the bark at the heads of the rearing snakes, one after another, again and again, occasionally renewing the saturation, he finally had the satisfaction of seeing the snakes begin slowly and drowsily to descend into the grass.

Four Men Killed by Train

Lebanon, N. H., July 22.—A carriage containing James Goodwin of Hingham, Mass.; William Thurston of Percy, N. H.; Thomas Burns of Winooski, Vt., and Edward McCabe of Lebanon was struck by the Montreal express on the Boston and Maine railroad shortly after midnight and all four were instantly killed.

AN IDEAL PLACE FOR A SANITARIUM

F. J. Tucker and the Men Behind Him Pleased with the Site They Have Options On.

Mr. F. J. Tucker, accompanied by a party of Chicago business men and two prominent physicians arrived in the city yesterday at 11:47 and after taking dinner at the Myers, took the steamboat and made the trip to the Burr Lithia Springs.

The extreme hot weather interfered very much with the inspection of the property but all were fully convinced that no better water could be found in the country and that it was an ideal place for a sanitarium. That the plan will be a success is not doubted for a moment by those interested in it. The place is an ideal one and the water is the best of its kind.

Those who made the trip to the springs were F. J. Tucker, J. C. Page, Robert Pringle, James Bradburn, Albert Elwood, Wm. Lake, Frank Magin, of the Chicago Board of Trade, Dr. Joseph Springer, coroner's physician for Cook county and Dr. Daniel S. Hogen. A meeting of those interested in the enterprise will be held at the Hotel Myers this evening at which time the opinions of the doctors who visited the springs some two weeks ago will be read. All of the citizens of Janesville who are interested in the furtherance of this enterprise are requested to attend the meeting.

NARROW ESCAPE OF THREE GIRLS

Results of a Lamp Explosion in a Room in Which They Sat—Severe Injuries Inflicted.

Miss Mabel Hillbrandt, daughter of Mr. and Mrs. L. S. Hillbrandt, was badly burned and she, her sister, Miss Josephine Hillbrandt, and her friend, Miss Ida Bunt, of Johnson, had an almost miraculous escape from death, last Saturday evening.

Miss Hillbrandt's injuries are the result of a lamp explosion and the room in which the accident occurred is ruined by the flames which followed the explosion.

Mr. Hillbrandt estimates the damage to his property at about \$200 and feels that he has great cause for thankfulness that his daughters were not fatally injured and that his home was not entirely destroyed by fire.

The accident occurred about eleven o'clock Saturday night. The Misses Hillbrandt and their guest, Miss Bunt, were seated in an upstairs room. Miss Mabel sat at the table reading and her companions were some little distance from the table. Miss Bunt says that she was looking directly at the lamp which was a large parlor lamp, when it exploded. The room was all on fire.

The burning oil flew over Miss Mabel's back and arm and as she rushed after her companions down stairs to where her father and mother were her light clothing was all ablaze. Mr. Hillbrandt hurried to his daughter and succeeded in putting out the flames which had little to do on Miss Hillbrandt's clothing being burned up completely as far as the flames spread.

Meanwhile Mrs. Hillbrandt and the two young women had gone up stairs to fight the fire. Miss Josephine, with rare presence of mind and phenomenal strength lent by the excitement, carried a heavy carpet to the room and with the aid of the carpet and the heavy curtains and rugs the family heroically fought the flames and conquered.

Dr. L. P. Merar, the well-known optician, left today for Chicago, from where he will bring his family to this city to reside. Dr. Merar has rented a home on Prospect avenue and a most cordial welcome will be given his family.

ELKS' CARNIVAL AT MILWAUKEE

Hosts of Merry Makers Pouring Into the Cream City.

WEEK OF PLEASURE

Arrangements Complete to Give Them a Royal Welcome Tomorrow.

CITY IN GALA ATTIRE

Milwaukee, July 22.—Beginning tomorrow morning the carnival of Elks opens, and from appearances it will be a hot time, exclusive of what the weather man may bring forth.

The visitors, who are bound to number fully 50,000, are already arriving in large parties, while delegations of still larger proportions will reach the city today and continue to come up to the time that the festival is well under way. If careful preparations, on a scale that is well deserving of the oft abused term, lavish, are significant, the carnival of 1901 is going to be a large and altogether unprecedented success.

As an incentive to large delegations from other places there are prizes of all sorts, conditions and sizes, from \$1,000 for the best lodge of Elks in the parade on Wednesday, to 12½ cents "on hoof" per pound for the heaviest Elk in the parade. There are prizes for bands, for the tallest Elk, the shortest Elk, the stoutest Elk, the thinnest Elk, for the heaviest and lightest and the Elk coming the longest distance to attend the carnival.

The carnival will be formally opened tomorrow forenoon at the Pabst theater, where an opening address will be made by Charles A. Hamilton and an address of welcome by Mayor Rose. Jerome B. Fisher of Jamestown, N. Y., will deliver the address to the Elks. The program will be interspersed with vocal and instrumental selections. In the afternoon will take place the dedication of the Elks' fountain in Juneau Park, which will be given to the city by the Elks.

The dedication address will be made by John F. Donovan, with a response for the city from the mayor. The exercises will be under the direction of H. A. Coleman. The dedication exercises will be preceded by a parade, in which the military and civic societies of the city will take part.

The evening will be passed at Whitefish Bay where the open band contest will take place.

Thursday the contest for the state bands will take place in the court of honor on Grand avenue, near the library. This contest is open to all Wisconsin bands, and they need not be connected with lodges. The fun of the week will be concentrated in the carnival parade which will come off Thursday afternoon. The parade will be followed by "Fun on the Carse," the Carse being Grand avenue from Eleventh street to the bridge, and Wisconsin street from the bridge to Jefferson street.

What this fun is anyone who has attended former carnivals will easily understand. This year, however, the fun will be regulated somewhat by the police, who will prohibit the throwing of anything but confetti, and will draw the line at fun at six o'clock precisely. But pleasure seekers can have a great deal of sport before that time.

The Carnival program will conclude with a big ball at the Exposition on Thursday evening. For this great preparations have been made, and it will excel in beauty anything of the kind ever seen in the city.

BIDS TO BUILD THE PUBLIC LIBRARY

Library Board Will Open Proposals at the Board of Education Rooms

This Evening.

Bids for the construction of the public library building will be received by the members of the board today. The board will meet this evening at 7:30 in the board of education's rooms in the High school building, open bids announce the amounts of the bids to the contractors.

On account of the number of bidders interested in the work the board selected the rooms at the High school so that there might be plenty of room for all assembled to hear the bids read.

The city hall building committee did not materialize at the time they adjourned to Saturday night, so that no mention of the amount of the bids will be made until this evening when the council meets. At present no one knows the amount of the bids but the committee who will hand in their report tonight.

The library board has decided that all bids for the library building will be opened in the presence of all interested parties and the figures made known so that there will be no chance for the contractors to kick as they did on Saturday last over the city hall bids.

At the hot weather price of 5 cts. per yard Bort, Bailey & Co. place on sale tomorrow 15 pieces of dimities. These dimities are all late patterns and are worth double the price.

BOER LIFE AT ST. HELENA.

Island Has 4,700 Prisoners of War—Cronje Weary of Detention.

New York, June 22.—The British steamer Reading, fresh from Ascension and St. Helena, is now at Jersey City. "There are just 4,700 Boer prisoners on the island," said the Reading's commander, Capt. Fishley, "and of these 17 per cent are Transvaalers and Orange Free Staters. The remaining 83 per cent is made up of other nationalities, in this order: Scandinavians, Germans, Italians, a few Russians, Irishmen and even Englishmen, a handful of Scotchmen, a few Americans, a few Greeks and scatterings of other nationalities. The farmers are complaining because the governor has impressed the surplus labor for work on the breakwater. A large number of Boer prisoners are also employed on the breakwater at five shillings a day. Some do not choose to work, others labor for the farmers and the older prisoners whittle out toys, which they sell.

"Gen. Cronje is also weary of his detention, but says little. I was told that the proportion of native Boers was representative of their entire army."

A dispatch from Paris says: Dr. Leyds, the representative of the Transvaal, has been summoned in haste to The Hague in consequence of the divulgment of the Reitz-Steyn letters, which were captured by Gen. Broadwood at Reitz, in the Orange River Colony.

REASONS FOR THE CHILTON FAILURE

Banker Versten Loaned His Money Without Proper Security—Worst Failure in Years.

Oshkosh, Wis., July 22.—The farmers of Calumet county put the money in and the firms of H. Zech & Co., and L. D. Dorsch & Bro. drew it out, was the explanation given today of the failure of the German Exchange bank of Chilton, a receiver for which is to be appointed tomorrow.

The failure, which Attorney General Hicks styled the worst in the history of Wisconsin, bears some resemblance to the Dreyer failure in Chicago, save that there is no charge of any criminal intent on the part of the head of the institution. His fault rather seems to have been blind nature and a hope that things would come out right, somehow, sometime.

The fact remains, however, that the bank owes over \$625,000, of which \$580,000 represented the savings of the farmers of Calumet county, and to meet these has good assets of only \$223,000. There are nominal assets of \$470,000 more but the most hopeful view taken of them is that they will not pay to exceed fifty cents on the dollar and it may be years before they can be realized upon.

Theodore Kersten, the president and owner of the bank, is one of the best known Germans in Wisconsin. Born in Prussia in 1842, his parents brought him to this country when he was a boy, and he has grown up in this community. When he was 24 years of age he was elected clerk of his town. In 1868 Clerk of Calumet county and for two terms he was mayor of Chilton. In 1898, he was the democratic candidate for state treasurer, and last year refused the democratic nomination for congress, in this, the Sixth district. He is a prominent member of the Catholic church and president of the German Catholic Benevolent society of Wisconsin. That society, however, does not seem to be affected by the failure.

WHEAT, CORN, OATS WENT SKYWARD

Sharp, Panicky Feeling on the Chicago Market Today on All the Cereals.

Chicago, July 22.—Sunday's hot wave in the corn belt was responsible for another panicky market this morning in September cereals. Wheat, corn and oats went skyward as soon as the market opened. Wheat advanced 1½ over Saturday's close, going to 70½; corn to 59; advance ½; oats to 37½, 2½ advance.

Physician Sues for \$100,000.

Indianapolis, Ind., July 22.—Edward E. Holman, a Chicago surgeon, has sued the West Baden Springs Hotel company in the Federal court here for \$100,000 damages. Holman, who was a guest of the hotel in December, says he tripped on a bad plank in an elevated walk near the hotel, injuring his spine in the fall. As a result he lost his health and his Chicago practice.

Find Schlatter Not Insane.

Washington, D. C., July 22.—The man claiming to be Francis Schlatter, and representing himself as a divine healer, who was yesterday arrested in this city, today was examined by physicians to determine his sanity. They reached the conclusion that he is not a proper subject for an asylum, and he will be arraigned in court on the charge of vagrancy.

Flood at New Orleans.

New Orleans, La., July 22.—Two inches of rain fell here between 10:45 and 12:45. The streets were flooded in many places from curb to curb.

ROCK COUNTY'S CROPS RUINED BY THE DROUGHT

Over 60 Per Cent of the Tobacco Acreage Has Been Withered—Only a Speedy Rain Will Save the Rest of the Crop.

CORN WILL NOT BE OVER HALF A CROP

Gazette Correspondents in All Parts of the County Make Estimates Upon the Condition and Prospects—An Alarming State of Affairs.

Crop reports from Rock county show an alarming condition of affairs. Figures and estimates received by The Daily Gazette from correspondents, town officials and farmers from all parts of the county indicate that the damage to crops in this county will reach from 50 to 60 per cent.

Tobacco is the greatest sufferer and from the returns received the loss from the drought will reach probably 65 per cent. Some of the early planting is in fair shape and with rain within a few days may be saved. But the continued heat today and the indications for the next few days are that the tobacco crop will be almost a total failure. In sections in the northern part of the county the stand is fair but it is slowly withering and dying out. In the southern part here has been no rain at all and the prospect is hopeless.

Replanted Three Times
Some farmers have replanted three times, but all to no avail, the expected rains have failed to materialize and the plants have died. In most fields large patches have been watered by hand and this has a fair growth but it looks small and sickly and only a heavy soaking rain within a few days can save it.

Many farmers have waited for rain before planting the crop and in despair have sown with millet, but even this hardy plant has failed to make good owing to the absence of moisture.

Tobacco Crop Doomed.
Some hope has been entertained that a rain would enable a planting of tobacco, that would mature before the frost came in the fall. But this hope has now been generally abandoned. Besides the lack of rain and the prospect for it, there is no chance that the crop could escape the early frosts.

The tobacco crop is doomed, and under the most favorable conditions will suffer a loss of from 60 to 70 per cent, if it is not total.

Corn in Bad Shape.
Corn is also in bad shape. About the same acreage as last year was put in, but the cold damp weather of the last of May and early June retarded the growth and the July drought kept it small and stunted. There will be a crop but it will be damaged more than fifty per cent and the yield will be small and mostly "nubbins."

Potatoes Pretty Fair
The potato crop will be pretty fair and was gotten in early and had a good start before the dry weather set in. The tre tops, however, were wilted and dried up a month earlier than usual. An examination of the fields discloses that the potatoes while numerous in the hills are small, scrawny and wart covered and that the yield will probably be at least 40 per cent less than in any ordinary season. This 40 per cent less will be an important factor in keeping the tuber in the top market price for the coming season.

Hay a Bad Failure
The hay crop is almost a total failure. Few farmers have gathered more than they need to carry them through the season with care and economy. Hay will be scarce and will no doubt bring a high price before the winter is over.

Oats a Poor Crop
Small grains, fruits and garden stuffs, it is estimated, will be damaged over 50 per cent. Oats are thin and scrawny, wheat is worse, but barley shows up a little better. Berries and garden stuffs are dried out, and except where watered by hand will be almost a total failure.

The Gazette's reports from the county are in detail as follows: **Reports from the County**
Bradford—All crops are from 60 to 80 per cent below average. A few replantings of corn failed to come, but generally all grew; owing to the extreme hot and dry weather barley was much affected and many pieces was cut for hay and will not be threshed; very little tobacco is raised in this township; corn has not suffered much yet, but without rain soon will be a short crop; hay from one-half to two-thirds of a crop; barley from 12 to 20 bushels to the acre.

Bradford—Good considering the season. With rain Old Rock would come out all right yet this part of the way. Tobacco is a failure in this section; can't estimate the corn crop yet but never looked better; hay not over one ton to acre; with a little more rain later potatoes will be good; barley about 15 to 20 bushels to acre; oats same; rye about 20.

Newark—General condition of the crops is quite poor; partial loss on all crops; tobacco will be more than a quarter crop; with immediate rain corn will be a half-crop and without rain none; hay half crop; potatoes, early, one-quarter crop, late with

rain, one-half crop; rye two-thirds crop; oats one-half crop.

Union—The general condition of the crops owing to the long continued drought is very poor; tobacco a partial loss to all; tobacco, only about half a crop, if that much; corn, present prospect less than a half crop; hay is fairly good; potatoes are almost a total failure; small grain not more than a half crop.

Porter—Lightest crop of everything that Rock county has known in forty years; everyone that raises tobacco has replanted from one to three times; no one in this vicinity has a total loss on any crop; partial loss on all crops for farmers in general; all gardens a failure; tobacco is estimated as being about a one-third crop and unless rain comes soon not that; hay is a fairly good crop and was secured in a good condition; early potatoes are a failure; oats are cut and threshing is being done; average oat yield is from 15 to 20 bushels to acre.

Footville—The general condition of the crops is not very promising; one-fourth the usual yield of tobacco unless it rains soon; corn may be a half crop if it rains soon; hay is much better than was expected; potatoes are a failure, late potatoes need rain very badly; rye is fair; oats may average 20 bushels to the acre.

Willowdale—The general condition of the crops is very poor with the exception of corn which is looking fair considering the dry weather. George Goldsmith, Edward, Harry Richards, George Hutton, Peter McCue are among those who have replanted; James Mooney and Peter Mooney have a total failure in tobacco; and H. Richards in sweet corn; James Crane and H. Richards have losses on tobacco and James Carroll on sweet corn; tobacco will be about a half crop; an average yield of hay; about a one-third crop on late potatoes; rye and average yield and oats a third yield.

Evansville—General condition of the crops is very poor; pastures are cooked brown. No one replanting tobacco; Old Sol very watchful, would pluck them quicker; partial loss of crops for everybody on everything; tobacco estimated crop is 20 pounds to the acre, 30 per cent of acreage never set, late planted is not growing; corn five bushels per acre; many pieces of corn are tasseling at two feet high and much of that is burned up; hay is a fair crop, say a ton per acre; early potatoes are very small, no particular yield; late potatoes are absolutely a failure; a fair crop of rye and barley, none has yet been threshed.

Newark—The general condition of the crops is very poor; Oleason Bros. Andrew Jensen, and several others are among those who have replanted tobacco; a 50 per cent crop of tobacco; 75 per cent one of corn; 85 per cent one of hay; 40 per cent one of potatoes and a 50 per cent yield of small grain.

Plymouth—General condition of the crops is fair if we get rain within a few days; nearly all raising tobacco have replanted; 50 per cent crop of tobacco; corn 75 per cent crop; from one-half to two and one-half tons of hay per acre; potatoes too early; oats from 10 to 30 bushels to acre.

Town of Janesville—General condition of crops poor. Need rain very much, and even good showers could only benefit corn, potatoes and tobacco; no one is replanting what it is so dry; millet that was planted it did not come up; no total loss on any crop in particular, but everything is suffering for rain; partial loss on everything; only a small per cent; of all crops have been secured; no yields of corn and tobacco without rain; yield of hay from 50 to 60 per cent; potatoes are about a fair crop; about a half to a two-thirds of a crop of small grain.

Rock Prairie—The general condition of Rock Prairie crops are badly dried up; a one-fourth yield of tobacco; 50 per cent yield of corn; 60 per cent crop of hay; 40 per cent of potatoes and a 75 per cent yield of small grain.

Edgerton—General condition of the crops is very poor; oats a two-thirds crop; corn looking better than last year; no total losses on any crop, but the most of the tobacco ground has been sown to millet and corn; if you have a list of the tobacco raisers in their localities mark down four out of every five as having sustained a partial loss on tobacco, and you won't miss it very much.

Harmon—General condition of the crops is not as good as common on account of the dry weather; tobacco a yield of 462 tons; corn 179,050 bushels; hay 1,859 tons; potatoes 15,

UNION SERVICES HELD IN PARK

UNIQUE MEETING UNDER THE TREES.

Hundreds of People Gathered in Reverence on the Grassy Lawn of the Court House Park, Owing to the Extreme Heat.—Rev. Mr. Hall of Court Street Church, Preached.

The trees in Court house park looked down upon an unusual scene last evening and unaccustomed sounds floated up through the motionless leaves. On the grassy lawn were seated hundreds of people, gathered together in reverence and when they lifted their voices in sacred hymns the melody was carried far on the silent, evening air.

The occasion was the union evening service of the Congregational, Baptist, Methodist and Presbyterian churches which was to have been held at the Baptist church. Owing to the extreme heat of the day the pastor thought it would be a good idea to hold the union service in the park and the thought, which originated with Rev. W. A. Hall, was a most happy one. The meeting was a splendid one, was largely attended and was a pleasant success.

Several members of the Y. M. C. A. were present and furnished excellent music for the singing was entirely congregational. Rev. Richard M. Vaughan had charge of the service and the Scripture lesson was read by Rev. Robert C. Denison. Earnest prayer was offered by Rev. John Schneider, pastor of the Fort Atkinson Methodist church, with whom Rev. W. W. Woodside exchanged pulpits yesterday.

The sermon of the evening was an eloquent one on Christian Unity, preached by Rev. W. A. Hall, whose clear, far-reaching voice is admirably adapted to outdoor speaking. Rev. Hall found his text in John 10, 16: "And other sheep I have which are not of this fold; them also must I bring and they shall hear my voice; and there shall be one fold and one shepherd."

This allegory of the Good Shepherd given by Jesus to the Pharisees, is richly suggestive. It was a thought new for them and the coming centuries. He was more than the door through which the sheep entered into safety. He was the good shepherd who knew the sheep by name, individually and intimately, and loved them profoundly. But he had another truth to reveal. He was talking to the Pharisees representative of all Jews. He saw narrowness and hardness of heart with the idea that God was for the Jews alone. They must be taught larger things, the largeness of Jesus.

A man can be judged as to his broadness or narrowness by the reach of his sympathies. Some men are interested almost solely in themselves. They are about as large as the hole left by a pin prick and about as vacant of value. Some are interested in their wives. Love of children is an emancipation. There are those who are interested in their own city, its schools, its government, its future—this is enlargement. But there is a very noble class of people whose large and warm good will takes in all the world. They are the true followers of Jesus, the first grandly broad man that ever lived.

In this allegory Christ foretold the time when all the world should be truly one under Him. The early church was one, standing strong because it stood together. Then corruption entered the church and then came the age of protest which resulted in many divisions, many denominations. This spirit has helped to bring out the various phases of truth and to teach people to think for themselves. The tendency to division, however, has gone far enough and is now stayed. The denominations still stand on their differences but they do not fight for them. Church unity is far from all that it should be but it is splendidly better than it was fifty years ago.

The churches are on the way to the seemingly impossible, ideal "one fold" foretold by Christ. It does not seem practical now but Jesus came to make the ideal real. In the industrial world the value of combination is being learned and it is even more necessary in the spiritual world.

The churches are not feared by the existing evils because the churches are not united and do not fight together. When the churches do finally stand together, they will be a power that cannot be denied. Such church unity, however, must be obtained, like all reforms, by evolution, rather than by revelation. It will come gradually but its coming is sure.

The successful meeting closed with singing and the benediction pronounced by Rev. Vaughan.

Church News and Notes.—The Ladies' Aid society of the Baptist church will meet in the church parlors on Wednesday morning at ten o'clock.

The Helpful Circle of the Baptist church will meet in the church parlors on Thursday afternoon at two o'clock.

The subject for the mid-week prayer service at the Baptist church will be "The Anointment at Bethany." John 12: 1-9. A. F. Hall will be the leader. Plan to attend.

The Epworth League of the First M. E. church will hold a business meeting at 7:30 o'clock. A full at-

tendance is desired as delegates to the district convention are to be elected. Other important business.

Regular prayer meeting at the First M. E. church Thursday evening at 7:30 o'clock.

The Thursday evening prayer meeting subject at the Congregational church will be "The Comforting and Inspiring Hymns."

Rev. John Schneider occupied the pulpit at the First M. E. church yesterday morning.

No meetings are announced for this week at the Court Street M. E. church and Presbyterian churches except the regular prayer meetings.

BUFFALO BILL COMES TOMORROW

Colonel W. F. Cody, "Buffalo Bill," at the head of his Wild West cavalcade, will ride through the principal streets of the city tomorrow morning, affording a foretaste of the exhibitions that are to be given afternoon and evening in the Spring Brook addition. That neighborhood will be made the scene of unusual animation on today by the arrival of the show, the construction of the arena, etc., the pitching of the tents and all the preparations for the exhibition.

The wild west show will have all the old features and many new ones. Of these there will be the government srew of the United States life saving service, which will exhibit, with the apparatus used for the purpose, the methods of rescuing shipwrecked persons from the sea by means of the breeches buoy.

The battle of Tien-Tsin will be reproduced, and there will be present detachments of troops from the allied armies of that war. There will also be a body of Boers, a contingent of Canadian soldiers from the Strathcona horse and Northwest Mounted riflemen in the exhibition at each performance and a detail of Baden-Powell's heroes of Mafeking.

OF SPECIAL INTEREST. To Hay Fever Sufferers.

Sufferers from hay fever and summer catarrh will be interested to learn that there is a new, simple, expensive but effective home treatment for this obstinate and baffling disease, and that a little booklet fully describing the treatment will be mailed free to anyone by addressing the F. A. Ttarr, Co., Marshall, Mich.

Doubtless this statement of a cure and positive preventative of hay fever will be received with skepticism by the thousands who have found the only relief every year was a change of climate during the hot months. But whether skeptical or not it will cost nothing to try this new treatment. Simply send name and address on a postal card to F. A. Ttarr, Co., Marshall, Mich. For the booklet, which besides describing the treatment contains a concise treatise on the cause and character of this peculiar disease.

Low Rates to Buffalo Exposition via the Nickel Plate road. Also special reduced rates Chicago to New York and return. Three through daily trains with vestibuled sleeping cars and excellent dining car service, meals being served on the American Club Meals plan, ranging in price from 35 cents to \$1.00. Chicago depot, Van Buren St., and Pacific avenue, on the Elevated Loop. Write John J. Calahan, General

Agent, 111 Adams St., Chicago, for full information and beautifully illustrated and descriptive folder of the Exposition Buildings and Grounds.

Amusements

Mr. Reeves-Smith and Miss Margaret Robinson, who gave one of the most artistic productions of last year's season at the Myers Grand, will appear at the local theater November 2, in "A Brace of Partridges." "A Brace of Partridges," with Mr. Reeves-Smith was first produced at the Strand Theater, London, and scored an instantaneous success, the comedy and actor receiving the unanimous praise of the entire London press. The receipts were greater than the little theater in the old Strand had known for more than nine years, and the demand for seats so great that Mr. Reeves-Smith transferred "A Brace of Partridges" to a larger house, viz., "The Garrick," in Charing Cross road, and the play ran there with great success until Mr. William Gillette began his London season. Mr. Charles Frohman engaged Mr. Reeves-Smith to open the Madison Square Garden, Theater, New York, with "The Brace," where it ran for a considerable time, receiving great praise from the New York press. Several of the original members of the London production will support Mr. Reeves-Smith and Miss Margaret Robinson, who will play the part of "Peggy."

\$13.00 To Buffalo and Return, \$13.00 via the Nickel Plate Road from Chicago, for the Pan-American exposition. Tickets on sale daily, good leaving Buffalo up to midnight of the tenth day from and including date of sale. Also tickets on sale daily Chicago to Buffalo and return at \$16.00 for the round trip, with 15 day limit, including date of sale. \$21.00 Chicago to Buffalo and return, good for 30 days.

Tickets Chicago to New York and return at special reduced rates. Write Y. Calahan, General Agent, 111 Adams street, Chicago, for full particulars and folder showing time of trains, etc.

Prominent Coal Operator Dies.

Washington, Ind., July 22.—Joseph Cable, eighty-one years, a leading coal operator in southern Indiana, is dead here. He was born in France and came here in 1839. Starting in life as a stable boy, at death he was the head of the largest mercantile establishment in this city. He recently gave this city a public park and library site.

Young Wife Kills Her Suit.

La Porte, Ind., July 22.—Mrs. Alice Smith, aged 24, committed suicide by taking Paris green. She died in intense agony. Despondency, resulting from domestic trouble was the cause. The coroner is investigating the case and sensational developments may be brought to light.

Is Deceased by "Martinelli."

Milwaukee, Wis., July 22.—More than 4,000 persons were present at the dedication of St. Joseph's Polish Catholic church. The ceremony, which lasted five hours, was performed by Cardinal Martinelli, special representative of the holy father in Rome.

Preacher as Pardon Board Member.

Dr. Frank Crane, the well known Chicago pastor, has been appointed by Governor Yates a member of the state board of pardons.

WAR AGAINST THE SPITTING HABIT

A Crusade Organized in the City of Chicago Brings Some Good Results.

According to the Chicago Record-Herald the ordinance of Alderman Gohlzer, adopted Jan. 14, designed to put an end to the spitting habit in Chicago, has not been productive of much good, judging by the efforts of the commissioner of health. When the ordinance was passed Commissioner Reynolds got up a nice placard announcing to spitting people that their favorite amusement was unlawful and that they were liable to arrest and fine if they were caught spitting in "public conveyances or other public places." He had 10,000 of these placards printed and offered them to the public for one cent each, but has sold less than 300 of them, and nearly all of that number to the elevated railroad companies.

The champion spitting fighter in the city is Public Librarian Frederick Henry Hild, who has ruled it out of the public library building since the building was opened in 1897. There has never been a spittoon in the building, except in the Memorial hall, over which Mr. Hild has no control. "The idea is not original with me," said Mr. Hild, "but was suggested by the usage of several fine institutions in Boston and Europe. When our new building was opened I did not see how I could avoid following the Boston example. We have, on an average, 8,000 visitors a day, the greater part of whom remain one or more hours. These are also mainly a class of people who have the tobacco habit and the spitting habit. If they were provided with, say, 1,000 spittoons and encouraged with the spitting habit, they would make the building a perfect pigsty, which they themselves could not long endure. Moreover, the expense of cleaning the spittoons would be considerable. Well I concluded that such a state of things was not to be thought of and there has never been a spittoon in the building."

"The Memorial hall is probably not visited by over fifty people a day, but is lavishly supplied with two-storyed bronze spittoons. But I have no control over that part of the building or there would not be spittoon there either."

"How did the visitors take to it? Not very patiently at first, I assure you. 'Where am I to spit, you blasted idiot?' was the angry inquiry addressed for a long time to the employee whose business it was to caution them on this subject. They were as indignant as though they had been forbidden to breathe. Many of them said they would not enter a building in which they could not spit, and they have never been in it since."

"At last," when the visitors saw that the rule was to be enforced at all hazards, they threw away their tobacco quids at the entrance, and in the early morning the whole sidewalk was covered with them. Any one who witnessed that sight would admit the so much filth was better in the street than in the elegant reading room and reference room of the public library building."

"There are still a few brutes who spit on the floor, which, however, are marble covered with linoleum, so that the defilement in small quantities is easily removed. Some of the them try to get near the radiators and spit and throw their quids in through the grill work, so as to vaporize it and send the stench all over the room. But the grill work is now covered with sheet iron, so as to prevent this."

"The conclusion I reach is that the spitting habit can be broken up if it is met firmly. Spitting people think it the most reasonable and delightful thing in the world to spit, and that it is at all events unavoidable. They are ready to fight anyone who objects to being spit upon. But I have proved that they can be taught better, and that after they have been broken off the habit they willingly admit that it was a filthy one and feel grateful to those who have wrought the reformation."

The Chicago commission's proclamation against spitting in public conveyances has had no effect, unless it be to increase the evil. The open street cars have modified the practice without mitigating it. Instead of spitting passengers now spit out into the street, and as they take no notice of the motion of the car and of the wind the spray from their expectorations is impartially distributed over all who sit near them. This gives double as much offense to cleanly passengers as the winter practice of spitting on the floor of the car.

The condition of the space in front of the last two seats of every car remains as bad as ever. Smokers being confined to this part of the car, nearly all the spitting is done there, and those who have inside seats spit on the floor. In a short time the floor is entirely concealed by spit, and tobacco refuse; and at the end of the route the car is reversed, the smokers are given the clean end of the car and the cleanly people are forced to sit in the defiled end. After a round trip both ends of the car are filthy, and unfit for any but smoking people to sit in.

The greatest evil of all is the spitting conductor and spitting motorman. These operatives seem to be selected for their tobacco chewing capacity. While they are on duty they are incessantly hunting for a place to spit. The conductor tries to spit between the cars and the motorman in front of his car. The result is that both of them spit on the passengers occupying the front end of the train. Not long since a conductor spat a mouthful of spit down the steps of his car and, barely missed the shirt front of a man who was about to enter.

Misses Carrie Janes and Fanny Rumrill have returned from a ten days' outing at Lake Geneva.

J.M. BOSTWICK & SONS.
THE BIG STORE 20, 22, 24, 26, 28, S. MAIN ST. JANESVILLE, WIS.
WE KEEP THE QUALITY UP

Break In Prices

Being after the 4th it is time to begin to reduce our stock of

Summer Wash Goods...

Right up to July 12th we have been receiving new things weekly, but they must go too.

All The Season

We have shown about 3 times as many wash goods as any other store here and sold an immense quantity.

Besides For Dresses

many women are buying thin stuffs for sacques, wrappers, etc. Right when hundreds of women want them, this is indeed an opportunity to take advantage of.

Our Price List...

25c fine French dimities, Egyptian Tissue, &c., now 19c
20c goods, various styles, now 15c
18 and 15c dimities, batistes, &c., now 12c
12 1/2c summer stuffs, now 10c
Broken pieces on many other summer dress goods that have been 30c to 50c

Remember

we have a beautiful assortment to select from, a liberal lot of styles in any color that one may desire. Strong line of all blacks and black and white materials.

A Different Subject

but important. The hot spell cannot last always and most people are anxious to make a saving whenever they can. When the mercury is dancing around the hundred mark something to make one cool is pleasant thinking but from a dollar standpoint the prices we are making on

Tailor-Made Suits...

are low enough to make almost any woman forget that she is warm. Price is not the only thing to think about when getting a suit. Quality is an important factor and we never forget about it. All of our suits were selected with great care from thoroughly reliable manufacturers and to buy one now is a good investment. Over 100 choice suits to select from; some with jacket silk lined, others all silk lined.

Tells the story. When your head aches, and you feel bilious, constipated, and out of tune, with your stomach sour and no appetite, just buy a package of

Hood's Pills

And take a dose, from 1 to 4 pills. You will be surprised at how easily they will do their work, cure your headache and biliousness, rouse the liver and make you feel happy again. 25 cents. Sold by all medicine dealers.

Tobacco Notes.

The following extracts concerning the tobacco outlook are taken from the Edgerton Tobacco Reporter:

The first rains to break the prolonged drouth in the tobacco belt fell last week, but they were scattering showers and brought relief only to a few localities. The prospects for the new tobacco crop are becoming each day more discouraging as the hot weather and the drouth continue. Nothing but a general rain that must come soon will save anything like a partial crop. The medium set fields are holding up best under the dry weather and stand to date to make the best showing when the drouth is broken. The growers are about disheartened at the outlook and contemplated sheds and improvements in curing houses have been abandoned for the season.

Trading in old goods is very much neglected in the local markets. The present prospects for new crops make the holders of old stock secure in obtaining prospective profits, and few packers care to quote prices.

The long heated term has carried the 1900 packing well along through the curing process and the tobacco promises to be in readiness for sampling much earlier than usual.

The shipments from storage do not exceed 5000s for the week past from this station to all points. Only 2000s of cigar leaf were exported from New York since last report.

The situation concerning the growing crop of tobacco is growing more serious every day. At this writing a three weeks' drouth and a season of scorching heat is still unbroken. The present outlook could scarcely be worse unless a total crop failure should come to us. In order to keep closely in touch with the conditions in all the growing sections of the state, Mr. C. L. Culton last week gave instructions to his representatives in the different localities of the tobacco belt, some twenty of them, to ride over their immediate sections and report the result of their findings. A summary of these reports, covering every tobacco growing section, goes to show that no locality except the northern part of Vernon county, is exempt from the withering effects of the drouth. The estimates through-

out the central belt place from 10 to 70 per cent. of the crop living that might, under favorable conditions, make a harvest, while the general average is not over half a crop. Every day the drouth continues cuts into the percentage above outlined. The oldest members in the tobacco trade say they have never seen anything like the present season since 1874, and the crop that year was a failure. Tobacco planted a month ago and well rooted is holding up under the parching weather and if rains should come this week some surprises may yet be looked for. The general impression is that at best a "B" crop is about all that can be hoped for.

A local dealer, wiring his New York connection, places another estimate upon the situation as follows:

Of the plants set and living there is probably not more than 10 per cent that has any start and looking at all well. It is only the fields and portions of fields that were set about three weeks ago, previous to the hot weather, since that time about 50 per cent. has been set and fully one-half is burned out by the hot sun and drying winds, and about 25 per cent. has not been set at all.

The farmers all agree that never, since tobacco has been grown in this state, has there been such a poor showing for a crop. The 25 per cent yet to be set out, if at all, cannot amount to much of anything, and the fields which have been set and are half killed out and the other barely half living, cannot amount to much, for if they reset as late as this, it will mean green stuff, mixed all through the earlier set plants, and if they leave it without resetting, the tobacco will be so thin on the ground it will be all whipped to pieces by the wind and will amount to nothing, and besides this, we will have to have a radical change in the weather before any setting or resetting can be done and makes the plants live. So each day makes it more certain we will not have over half a crop grown in this state this year, and a very poor prospect for that half, amounting to not much, excepting a few of the earliest set fields.

CROPS ARE RUINED BY THE DROUGHT

Continued From Page 1.

643 bushels; small grain 118,205 bu. Clinton—The crops are suffering very much for want of rain. The tobacco crop is nearly a total failure; a prospect of a one-half crop of tobacco, but that growing less daily; hay three-quarters of a ton to the acre; potatoes are nearly a failure, also all garden truck; barley 18 bu. per acre; oats 20 bushels.

Milton—Rye and winter wheat good; barley fair yield, but shrunken; oats much cut for fodder; much of the tobacco has been replanted, and 25 per cent of the acreage has been abandoned; general condition of all crops is poor. A one-half tobacco crop at best; too early for a reliable estimate on corn; one-half crop of hay of good quality; late potatoes will be a failure without rain, the vines are free from bugs and blight.

Johnstown—The general condition of the crops is fairly good; rain is needed; tobacco will be an average crop; corn will be an average crop; hay is light; potatoes light, and small grain average.

Fulton—General condition of the crops is fair; nearly everyone has replanted their tobacco; tobacco will be about a half crop; corn about normal; hay somewhat better than last year; potatoes about a half crop; small grain a two-thirds crop.

Koshkonong—General condition of the crops is poor; estimated yield of tobacco is 25 per cent; corn 50 per cent; hay, 75 per cent; potatoes 25 per cent; small grain, 50 per cent.

Rock Township—Oats and rye are being threshed; corn and tobacco are suffering badly for want of rain; potatoes are at a standstill; no replanting; many have already lost their tobacco acreage and corn will be a total failure unless rain comes soon; all tobacco raisers are losers; a large acreage of oats has been put up for fodder, not being worth threshing; tobacco will be a half crop if we have rain, without rain nothing; no estimate can be made on the corn crop; total failure with rain; hay one ton to the acre; potatoes are almost a failure, can't estimate; small grain such as oats and rye will yield from 15 to 20 bushels to the acre.

Center—Corn may yield ten per cent of average crop if rain comes soon; all crops not more than ten per cent of average yield on account of drought; Henry Haack, P. Corlim, are among those replanting; plants are dying every day; there may be a total loss on grain and hay; tobacco is a total loss to many of the farmers in vicinity; every farmer within a radius of six miles of here will suffer more or less of a loss on his crops; tobacco about a one-tenth of the average yield and plants still drying up; if rain comes soon corn will be a one-tenth crop, if not it will be a total loss; no potatoes unless rain comes soon; no small grain at all unless rain comes soon; no small grain without immediate rains and over a two per cent yield.

Beloit Township—General condition of crops is poor; tobacco will be nearly if not entirely a failure; corn is looking fairly well but must have more rain soon; hay two-thirds of an average crop; late potatoes will be a fair crop with rain, early crop nearly a failure; oats 10 to 20 bushels per acre; rye 6 to 12.

Clinton—The general condition of the crops is somewhat below the average; tobacco will be nearly a total failure as a large part of the acreage planted has been burnt off by the sun; cannot form an estimate on corn crop but will be poor; hay rather below the average yield; potatoes will be short, although late plantings may revive some; small grain will be from 10 to 15 per cent below the average.

Spring Valley—Conditions indicate about a 60 per cent crop of small grain; potatoes 40 per cent; corn needs rain badly and will mature in 80 per cent crop if rains come within a week; 80 per cent crop of tobacco replanted with less success than first planting; many fields have no tobacco; no crop is a total failure except tobacco; hay is a good crop on upland; estimated yield on tobacco 40 per cent; corn 60 per cent with chance of increase; hay 100 per cent; potatoes 40 per cent; small grain 60 per cent.

Lima—The crops are very much affected by the drought; none have been replanted except where corn has been planted in; very little tobacco is grown; impossible to estimate yield of corn; prospect for corn good, wanting rain; hay is good; very poor prospect for potatoes; many pieces of small grain are good, and others are not over one-half of a crop.

Union Township—The general condition if the crop is very poor; those replanting, tobacco are L. Bagby, Bert Montgomery, B. W. Hubbard; all will have a partial loss on tobacco; estimated yield of tobacco a 25 per cent crop; corn, with rain, a 40 per cent crop; fair crop of hay; potatoes a failure unless rain soon; small grain as far as threshed about 40 per cent.

Magnolia—I had a talk with our assessor, Robert Prazier. He has about finished canvassing the town. He told me last year he listed 540 acres of tobacco, this year about one half of that amount or 270 acres, and he said that we could halve that for half a. It had died out and would be sowed to millet which would leave 135 acres of tobacco in Magnolia. There is some crops looking pretty good around Magnolia. Berries all dried up on the bushes and gardens are dried up; apples none and no plums; pastures are failing fast.

Reduced Rates to Monona Lake Assembly at Madison via C. M. & St. P. Ry.

On July 17th and 18th, good until Aug. 3, at \$1.60 for the round trip, July 18th to Aug. 2, good until Aug. 3d, at \$1.60 for the round trip, on certificate plan. On July 27th and Aug. 2nd, at \$1.19 for the round trip. All C. M. & St. P. trains stop right at the grounds.

WISCONSIN WEATHER FORECAST
Generally fair tonight and Tuesday with slightly changeable temperature.

Another annual report of the commerce commission has been received and it reflects the general prosperous condition of the country. The improvements in railway earnings, equipment and increased number of employees show that passenger and freight traffic has materially increased. This is a good indicator of the condition of the country, in that freight receipts correspond with the amount of manufactured products and raw material changing hands, while passenger traffic always varies with the general prosperity of a country. The money paid out by railroads in salaries during the last year was over a half billion, being an increase of twenty-five per cent over the salaries of the preceding year. A remarkable fact is brought out in the report by the statement that only one passenger out of two and a half million carried is killed by accident. This makes our roads the safest in the world, in face of the fact that they are the fastest in the world.

If Admiral Schley had been with any other navy in the world he would have been court-martialed and shot. The words of Mr. MacLay in justification of the scathing arraignment of the admiral in his "History of the American Navy." The Gazette has taken the part of Admiral Sampson in the Sampson-Schley controversy, and does not recede from that position, but it protests against any such statements as the one quoted above. Both admirals are entitled to their share of praise, and neither deserves to be "court-martialed and shot."

Perhaps the statements of MacLay do not deserve notice, however, as MacLay is classed as a laborer at the Brooklyn Navy yard.

A Chicago youth employed by the American has put Mr. Fog of Jules Verne to shame, by putting a girder around the earth in sixty days. When "Around the World in Eighty Days" was written less than thirty years ago, it was looked upon as fiction pure and simple. Now Chicago push has made it more than a reality by knocking off twenty days.

The half breed newspapers are now roasting Charley Pfister. Mr. Pfister will be remembered as the man who raised a \$40,000 campaign fund, from the corporations, to secure the election of the republican ticket, headed by Mr. Robert M. LaFollette, of Madison. The trouble with Mr. Pfister is, apparently, that he is a republican, and not a half breed.

A courageous newspaper man in the postal department has accomplished what congress has failed in because of powerful lobbies sent by publishers of paper covered novels. It is estimated that from \$15,000,000 to \$20,000,000 annually will be saved by the new order as to the classification of postal matter.

To sidetrack Senator John C. Spooner—who never was a politician—for Uncle Ike Stephenson—who never was anything else—is a brand of political reform that won't keep in any climate. Governor LaFollette's plan will have to go to the laundry before it will pass muster.

The new Milwaukee half breed organ devotes a column of space to a defense of Uncle Ike and his barl. Then new half breed organ writers started the barl business two years ago and now find it difficult to kick off their own offspring.

It seems strange that the old question of higher education for women should be discussed at the N. E. A. and still stranger that Chicago professors should take the woman side of it.

A school for journalism has been installed at Iowa University and proved a failure. There are some things that cannot be learned from books, and successful journalism is one of them.

The Cincinnati minister who is being sued because he keeps the neighbors awake must be a remark-

able man. Some clergymen cannot keep their congregations awake.

The great automobile test next September between New York and Buffalo will probably bring out machines that will put engine 999 to shame for speed.

An escaped Boer prisoner has come to New York as a stowaway and has been released. England may scowl, but this is international law, and there is no recourse for her.

The Pennsylvania oarsmen had better be reminded of Cornell's fluke last year before offering an insult to English sportsmanship.

New York is fighting the weather man as if he managed the weather. But he's a Chicago man. That explains New York's attitude.

Pat Crowe has been seen in South Africa and St. Joseph, but not in Janesville. The hies'll get him if he ever comes here.

The payment of our claims by Turkey, calls to mind the murder of Frank Lentz while on a bicycle tour through Armenia.

Oom Paul is now giving some serious thought to the question "What shall we do with our ex-presidents?"

The plans for the new city hall do not appear to be complete—no slot machine rooms are provided for.

Ear muffs are unsightly. Constant rubbing will keep the ears from freezing. Don't use them.

If some one would only leave Mars alone long enough to send a message to the sun!

It is about time the reign of Old Sol gave way to the rain of water.

THEY KNEW NOT HIS WANTS.

The business man—same one—stood on the sidewalk in front of his store, and saw, in the distance, another stranger.

"I hope," he said, "that I won't have to introduce him to Alderman Jamesby. I don't like my job, but Jamesby has to be seen before, anyone can locate here."

Alderman Jamesby—the only original—came along at that moment, and stopped.

The stranger came on apace. The business man looked worried. The crisis was at hand.

"Nice day," said the stranger affably. "I am looking for a little information. I—"

But the business man had usap peared.

Jamesby stood his ground. The stranger looked uneasily after the business man. "I was looking," he continued, watching Jamesby out of the corner of his eye, and noting the tinge of purplish pale on his face, "for the C. M. & St. P. dep—"

Then the fit was on. The stranger recoiled.

Then he ran. He looked back over his shoulder, but lost no speed.

A train was pulling out of the depot—fatal name.

He jumped aboard. And went hence. Forever.

And Jamesby—well, he's ready for tomorrow.

THE MALAY PENINSULA.

It Will Be Explored by a Party of Scientific Men.

A novel expedition has just started from London for the Malay peninsula, the principal members being Mr. N. Annandale, who was a member of the Skeat expedition to the Siamese Malay states in 1899, and Mr. H. C. Robinson, who is an assistant in the zoological department of University College, Liverpool. The expedition will remain for a year in the native state of Jalor, near the east coast of lower Siam, and will explore that region, as well as the neighborhood of Patani and Baseret. One of its special objects is the study of the pre-Malayan tribes of negro stock, who inhabit the center of the peninsula. Collections will also be made of animals and plants, as well as of the fauna, both living and extinct, of certain very large limestone caves, which are found in various places and which are said to extend for great distances underground. Adequate time will also be spent in studying the birds of the peninsula and it is believed that by such observations much new light will be thrown on mimicry and allied phenomena. Mr. Robinson is taking with him dredges and tow nets for the investigation of the marine fauna and he purposes by pumping sea water through fine silk nets to make during the outward voyage a collection of the surface plankton of the Red Sea and Indian Ocean.

The Cyanide Process.

The cyanide process, briefly, is the dissolving of fine gold in the crushed ore by a dilute solution of cyanide of potassium and the subsequent precipitation of the gold from the solution of cyanide with fine zinc shavings. The ordinary plant is inexpensive and simple in operation. The cost of the process is small.

MAJOR BURKE TELLS THE REASON

Why Buffalo Bill's Wild West Show is the Best of Its Kind on This Earth.

Major John M. Burke, "Buffalo Bill's" advance agent, blew into the Gazette office this morning and made several impromptu remarks about the show he represents. He said:

"The secret of the success of Buffalo Bill's Wild West is the fact that nothing is presented to the eye, either act, trick, horse, Cossack, Indian, Philippine, Hawaiian, Mexican, Porto Rican, cowboy or any other man of any nationality who appears on the program which is not, or who is not really and truly what he is or it is represented to be. Colonel Cody believes in the education of the people, particularly the young, and by this strict adherence to the truth in the representations made to the public, he has earned the gratitude of the adult population by his honesty, as he has earned the awe inspired admiration of the young by his deeds of daring."

The big show is in Milwaukee today and will arrive and strike its tents tomorrow morning early. The indications point to an immense crowd in attendance.

A Loyal Boy Patriot.

A Confederate soldier in the civil war saw a boy, wearing the uniform of the Union army, lying wounded in the hot sun. As the man looked pityingly at the boy the little fellow gained courage to make a request.

"Neighbor, won't you get me a drink of water? I'm very thirsty."

"Of course I will," said the man, and he brought the water.

Encouraged by this, the boy asked again: "Won't you get me taken to the hospital? I'm badly wounded."

The man said: "Well, now, my boy, if I get you taken care of and you get well, so that you can go home again, will you come down here and fight me and my folks once more? How about that?"

It was a hard test for a wounded prisoner boy, but that boy stood the test. Looking his captor in the eye, he said firmly, "That I would, my friend."

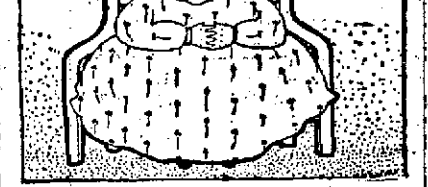

"I tell you," said the man, "I liked that pluck. I had that boy taken to the hospital and good care taken of him."

Book No Longer Dry.

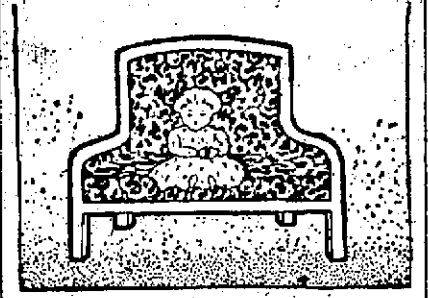

Mother—I wonder how this new book got in such a horrible condition.

Little Max—I heard papa say it was too dry for him, so I poured water on it.

Made Her Feel Small.

A good little maiden, Who with much flesh was laden: And who wished very much to grow small.

Once did a mean act And was shamed by the fact Till she shrank to scarce nothing at all.—Harvey Peake in Chicago Record-Herald.

A VERY BUSY BABY.

Trick of a Mother That Looked Like Imposition.

There is an infant in Washington who, when he gets old enough to read about Sisyphus, will know how to sympathize with that mythical Greek. Baby was not in evidence on a certain afternoon when a contributor called on his mamma and, as the newspaper woman writes, she asked if he were asleep. "Oh, no," answered the mother, "he's wide awake, but he's busy just now, and babies never cry when they are busy." Of course I made inquiry as to what a baby of ten months could possibly be busy about, and the mother opened the door of the bedroom that I might see for myself. There, on the rug, spread where the sun would catch it, sat his little lordship, as sober as a judge, doing—why, you'd never guess what that blessed child was doing. His hands had been smeared with some sticky substance (let us hope it was innocent), and to one of them stuck a dozen tiny feathers. Baby gravely picked the feathers off his left hand with his right, and then as solemnly set to work to pick them off his right hand with his left. "My mother always kept her babies quiet that way," said the young matron, "and I find it works beautifully with Algernon. I always fix his hands so when I expect company, and he'll sit for hours trying to get the feathers off." I offer this plan for the benefit of perplexed mothers, but at the same time I think it's a mighty mean advantage to take of the patience of an innocent child.—Washington Post.

Wallace McGregor of Racine, is in the city, being called here by the serious illness of his sister, Miss Flossie McGregor.

LIVE STOCK MARKET.
(BY SCRIPPS-McRAE (LARGES))
Chicago, July 22, 1901.

Keep Cool During the Summer

months by fitting your stores, hotels and public dining rooms and homes with electric revolving fans. The patronage of the public is secured where stores and public places are kept cool when the air is sultry and torrid. Over eighty are in use now these hot days and every one is making dozens of Janesville people happy and cool. Cost of installation and operation very reasonable.

JANESVILLE ELECTRIC CO.
21 West Milwaukee Street.

WILL BEGIN WORK ON ELECTRIC LINE

BELOIT, DELAVAN LAKE & JANESVILLE, IS A SURE GO.

Construction Will Begin on August 1. Next, and the Grading Will Be Completed by January 1.—Track-Laying Begins at Rockford—Janesville the Center of a System.

Active work on the Beloit, Delavan Lake and Janesville electric line will begin on August first and all grading will be completed by January 1st. The work will be started at different points along the line where the grading is the heaviest. The first work will probably be just south of Beloit, where there is a lot of heavy grading.

Track laying will be started at Rockford and run towards Beloit as fast as the grading and bridges are in shape to put down the rails and ties. The greater part of the supplies have been delivered at Rockford, on account of the difference in freight rates. As fast as the track is laid the supplies can be pushed toward the place where the work is being carried on at a small cost.

Engineer Jackson and Mr. Clough will meet the Chief Engineer of the Northwestern at Rockford Thursday and settle the question of railroad crossings with him. They have a number of crossings between this city and Rockford and it is to settle how the crossings are to be made that this trip will be taken.

These gentlemen will go over the entire line between this city and Rockford to see just how the land lies.

If there had not been so much delay caused by Beloit's unwillingness to grant them a reasonable franchise the work on the grading of the road would now have been all under way. The road however is here to stay and it will be constructed on first-class lines even if Beloit does make them lay flange rails through that city.

WIFE DESERTED BY HER HUSBAND

Bride of But Five Months Whose Young Life Has Been Plunged Into Trouble.

There are more sorrows than physical suffering and worse troubles than discomfort from the heat. At Mary Kimball's mission there has been since Saturday noon, a young woman, a bride of but five months, whose glad young life has been suddenly plunged into darkness by a tragic sorrow.

Her name is Mrs. Arthur Vail and she came here from Denver, Colo., where the couple have resided ever since their marriage five months ago. Her husband accompanied her as far as Chicago and put her on the train in that city. He left her saying he would be back in about three minutes. That is the last that she has seen or heard of him.

She arrived in this city at noon and would not have known what to do but fortunately Mrs. Kulek, of 203 Lincoln street, who was just returning from Denver, was on the same train. She noticed the young woman's distress and heard her story and when the train reached this city, she took the unfortunate young woman to the Mary Kimball mission.

The young woman is twenty-three years of age. She is an orphan and has cared for herself ever since she was thirteen. Her younger brothers and sisters are in an orphan asylum at LaCrosse, where the family lived and where she was born. Her maiden name was O'Hallahan. A little over a year ago she met Arthur Vail, a moulder, at Denver, and in February they were married. Before long the young bride became happy in the knowledge that that the crown of motherhood was destined to rest upon her head. Then her husband told her that he was going to start a summer resort near Janesville, Wis., and they started on the journey, which has ended so sadly. The young woman is almost frantic with grief and cannot understand her husband's conduct as he has always been very kind to her and never denied her anything. She was devoted to him and he seemed to love her fondly. She has only \$3 in money and in her physical condition she doesn't know what to do as she has no near relatives. Any assistance that can be rendered to help her in her great distress will be most gratefully received.

The case will be put into the hands of the police.

WILD RUN AROUND THE FIRST WARD

Charles McKewan Sees a Child in Danger from a Runaway, and Risks His Life.

On Saturday evening a horse belonging to Ernest Zimmerman, who resides on Racine street, made a wild run around the First ward and finally ended up on West Milwaukee street near Ranous' drug store. The little one was directly in the path of the runaway, animal and looked as if it would be trampled under the feet of the runaway. Charles McKewan, seeing the danger the child was in, took his life in his hand and made a jump for the animal and caught him by the nose and bit and stopped him before the child was reached. The young man was dragged some distance after catching hold of the horse but was not injured. Such acts of bravery as this deserve more than a passing notice.

Dunham's 4-lb coconut, not sold in bulk, 15c a package. Nash.

The finest mustard sardines you ever saw, 10c a can. W. W. Nash.

Crystal Camp, E. N. of A. will meet in regular session Wednesday evening.

Mrs. Frank Kulek is home from a pleasant visit with friends in Denver, Colorado.

The Imperial band will give a concert on the Corn Exchange square this evening.

Miss Toal, of the firm of Toal & Ludlow, spent Sunday with relatives in Whitewater.

For desirable styles in wash dress goods at moderate prices go to T. P. Burns.

Miss Lillian Ingledien of Chicago, is the guest of Miss Frances Fifield, at Murdock flats.

Miss Elizabeth Muldon of Shullsburg, is visiting Miss J. D. Kelly, No. 5 Academy street.

Bargains big enough to boast about in our ladies' suit and separate skirt department. T. P. Burns.

A regular meeting of the W. R. C. will be held at G. A. R. hall Tuesday afternoon at 2:30 o'clock.

Household goods for sale. Call this evening or tomorrow, corner of Walker and Williams street, Second ward.

Three and \$3.50 ladies' high cut tan shoes go at \$1.49 per pair this week at Rehberg & Co's. special July sale.

Complete line of Hamburg embroideries at one half price. Bort, Bailey & Co.

There will be a meeting of B. P. O. E. No. 254 this evening at 8 o'clock to make arrangements for attending the Milwaukee Carnival.

Anyone wanting a catalogue of the Rock County fair, to be held at Evansville, can secure one by calling at The Gazette office.

Ladies' high cut tan shoes that sold for \$3 and \$3.50 are being closed out at Amos Rehberg & Co's. special sale at \$1.49 per pair.

Regular meeting of the common council this evening at 8 o'clock. The bids on the construction of the city hall will come up for consideration.

George Burridge, the well known carpenter, suffered a severe stroke of paralysis, Saturday evening. His condition today was very serious.

The steamer Columbia will make its regular trips tomorrow afternoon, commencing at 1 o'clock.

All those who ever attended school at the Bigfoot Academy, Walworth, Wis., are invited to attend the annual reunion to be held Thursday, August 8, 1901, at the old Academy grounds.

Richheimer's celebrated coffees are to be secured only at Richter Bros' store. Prices range from 15 to 40 cents per pound. Every pound roasted by electricity.

For 15 cents per pound Richter Bros' sell you Richheimer's famous local brand of coffee. It equals any 25 cent goods on the market.

The Isabel Manufacturing company closed its factory today on account of the extreme heat. It is the expectation that the factory will start again tomorrow noon.

Never mind the heat, when you can go to Rehberg's and purchase ladies' \$3 and \$3.50 shoes at \$1.49 per pair. Watch our ads for live hot weather bargains in shoes and clothing.

W. F. Hayes, the eye specialist, left for Milwaukee this morning, where he will be present at the Wisconsin Optical society's meeting which convenes tomorrow. Mr. Hayes is the chairman of the board of examiners of the society.

The Elks' official train for Milwaukee to the Carnival will leave Janesville Tuesday morning at 8 o'clock a. m. via C. & N. W. Ry. in place of the C. M. & St. P. Ry. as stated in Saturday evening's issue. The statement as it appeared was an error of the type.

Miss Christine Halvorson, of Stoughton, Wis., and Miss Helga Anderson, of New York, are visiting with Mr. and Mrs. A. I. Bierkness, 106 Terrace street. Miss Anderson is a sister of Mrs. Bierkness and they have not seen each other for sixteen years.

All this month Richter Bros. give free samples of the famous Richheimer coffees. Come in and get a supply for your next breakfast. It will cost you nothing. We will also supply picnic parties given by the Sunday schools free of charge. What offer could be more fair.

Saturday evening the Bricklayers' and Masons' union held their annual meeting at their hall and chose the following officers, who were also installed: President, C. W. Bly; vice president, Olie Benwitz; recording secretary, Julius Hagar; corresponding secretary, Ed. Marshall; financial secretary, T. L. Curtiss; treasurer, Richard Benwitz; warden, Wm. Hell; deputy, Frank Zeurearth; trustees, Wm. Baker, six months; Al. Kath, one year; T. T. Doran, eighteen months.

Bunching Law Points. An Illinois attorney argued to the court one after another a series of very weak points, none of which seemed to the court to have any merit, until the court finally said: "Mr. —, do you think there is anything in these points?" To which the attorney replied: "Well, judge, perhaps there isn't much in any one of them alone, but I didn't know but your Honor would kind of bunch them."—Case and Comment.

TWO FIRE ALARMS SENT IN YESTERDAY

Farm-Dwelling of Edward Quirk, on the Beloit Road, Burned Down—Fields Catch Fire.

Yesterday morning the farm dwelling house of Edward Quirk, located on the Beloit road, was almost totally destroyed by fire. The alarm was turned in at 11:15 from box 333, located at the corner of McKee boulevard and James place. The department responded quickly and found the building burning fiercely. The nearest hydrant was at the corner of Eastern avenue and McKee boulevard, two thousand feet away, so that the department experienced some difficulty in getting a stream on the burning building. How the fire caught is a mystery as none of the family were at home at the time. It is estimated that the loss was about \$800, which is covered by insurance in a company represented by Simon Strauss. The grass on the vacant fields along Washington street near the cemetery caught on fire again yesterday and an alarm was sent in at 12:25 from box 131 at the corner of Magnolia avenue and Washington street. The department had just reached their houses when the alarm came in. They started out again on a long run in the blazing heat to put out the grass which had already been the cause of two alarms. The fire was soon put out by the use of the chemical extinguisher on the patrol wagon.

It would be a good plan to allow the grass at this point to burn out when it gets started or else have the railroad company keep men on the lookout for such blazes.

Excursion Tickets to Rock River Assembly at Dixon. Via the North-Western Line will be sold at reduced rates, July 24 to August 8, inclusive, within a radius of 50 miles. From farther points within a radius of 200 miles, reduced rates on certificate plan will be made. Apply to agents Chicago & North-Western Ry.

pull bearers were John Sullivan, Dennis Barry, James McDonald, Thomas Stack, James Cochran and W. Dalton.

Mrs. Bridget Holloran. At ten minutes before one o'clock this afternoon the grim reaper called to her everlasting reward, Mrs. Bridget Holloran, another of the pioneer settlers of this city.

Mrs. John Wilkins. Mrs. John Wilkins, for over forty years a resident of this city, died at her home, 112 Galea street at half after one o'clock this morning aged 69 years. Funeral notice later.

Heat Records Broken. All previous heat records were broken in Janesville yesterday when the mercury climbed higher than on any previous day this summer. Thermometers in various parts of the city registered from 103 to 112 on the north side of the house about one o'clock. Last night at one o'clock where the outdoor thermometer had stood at 106 at one o'clock, a thermometer in the sitting room showed 94 at ten o'clock.

LATEST FOREIGN NEWS.

Killed in Election Riots.
Santiago, Chili, July 22.—In the extra scrutiny of elections a conclusion has almost been reached, having been placed in the hands of the judge for confirmation. The result so far shows a majority of 29 votes for Santiago Aldunate over Herquinio. This result, the electoral college declares, would not be altered by the table of Nunos, which was kept out of the count, since the majority of that table belonged to Aldunate. A battle occurred between the rioters and the secret police, after which tranquillity was established. Seven coalitionists and three police agents were killed and twenty-three coalitionists and fourteen police agents were wounded.

Asquith Breaks the Tie.
New York, July 22.—A dispatch from London to the Tribune says: The general view among liberals is that Mr. Asquith has severed himself politically from Lord Rosebery, and that the situation remains as it was immediately after the Reform club meeting. It is noted as significant that Mr. Asquith deliberately ignored Lord Rosebery's manifesto. It is rumored that Lord Rosebery intends to conduct a movement in the country in support of his views, which are to constitute a liberal party on a new and national basis.

Belgian Minister Quits.
Brussels, July 22.—Count De Lichterveldt, Belgian minister to the United States, will retire from that post at his own request. He will be succeeded by Baron Moncheur, Belgian minister to Mexico, who in turn will be succeeded by Viscount De Beughem De Houthem, councillor to the Belgian legation in London.

Russia Suffers from Heat.
St. Petersburg, July 22.—Phenomenal heat prevails throughout all northern Russia. The temperature in St. Petersburg today was 117 degrees Fahrenheit. In Odessa it was 103, and the rate of mortality there is 70 per cent above the normal.

Boer Commando Captured.
Kroonstad, July 22.—Major Pine-Coffin surprised a Boer commando at Honingspruit July 19, capturing Commandant Hattin, two sons of General Prinsloo and twenty-four others, and killing and wounding seventeen.

Mr. Kruger's Wife Is Dead.
Paris, July 22.—A dispatch from Brussels says former President Kruger has been notified by cable that his wife died at Pretoria.

THE FIRE RECORD.

Fires After Vice Crusade.
Mattoon, Ill., July 22.—This city has suffered eighteen conflagrations in the last four weeks, entailing an aggregate loss of \$2,400,000. Three of these fires broke out Saturday night in different portions of the city in the space of two hours. All were of incendiary origin. The authorities have been destroying gambling outfits and enforcing the law against vice, and fires are believed to be the result of retaliatory measures. A vigilance committee is to be appointed and extra guards to patrol the business and residence portions of the city.

Burned to Death in De Kalb.
De Kalb, Ill., July 22.—Mrs. La Fayette Sealey was burned to death at her home in De Kalb. She was cleaning in a room, and wishing to see whether she was doing her work well lighted a match. Immediately she was enveloped in flames. Her screams brought the neighbors and several were severely burned trying to put out the fire. The house was burned down.

Dependents' Home Burns.
Berlin, Wis., July 22.—The home for dependent children in this city burned at 5:30 p. m., the fire totally destroying the house and barn. Nineteen children were made homeless. The house was a branch of a Chicago institution and was in charge of Mrs. Black. The origin of the fire is unknown.

Steamer Burned at Quincy.
Quincy, Ill., July 22.—The steamer City of Metropolis was burned to the water's edge this morning. Incendiarism is charged. The boat was valued at \$2,500 and was in charge of a United States custodian, having been attached for debt, Saturday.

Town in Iowa Wiped Out.
Osage, Iowa, July 22.—The town of Riceville, near this city, which has about 1,000 inhabitants, has been practically destroyed by fire. Nothing is left of the business portion of the town.

Robber Is an Illinois Boy.
Rochester, N. Y., July 22.—A man arrested for the robbery of Emeline Perkins' house of valuable jewelry, and who gave the name of George Pierce has been identified as Wallace Galbreath, Ill. It is said Galbreath was at one time confined in the Illinois state reform school at Pontiac and was paroled. He was employed as bellboy in the Palmer House at Chicago and was arrested on a charge of robbing a guest of \$5,000 and sent to the reformatory.

Plan Big Mineral Palace.
Deadwood, S. D., July 22.—Mining men all over the Black Hills are becoming enthused with the idea of making a permanent mineral palace in this city, showing gall of the different kinds of metals and nonmetallic substances that are found in this rich mineral section.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher
The Kind You Have Always Bought
In Use For Over 30 Years.

THE CASTORIA COMPANY, 27 MURRAY STREET, NEW YORK CITY.

Boy Strangled on Swing.
Chicago, July 22.—While seated on a swing in the rear yard of his home, Samuel Patterson, aged 14, became entangled in the ropes. He slipped off the board. A noose formed itself around his neck and the boy, unable to free himself, was strangled to death. The body was not discovered until several hours after death.

Three Negroes Lynched.
Cleveland, Miss., July 22.—Jesse Phillips, negro preacher, was lynched here last night for the murder of Lucius Reed, July 15. Three negroes who made demonstrations against the lynching were also killed.

St. Joseph, Mich., Record.
St. Joseph, Mich., July 22.—With twenty-three bridal couples from Chicago married at the home of County Clerk Church all previous Sunday records were broken. Although other cities are making an effort to relieve this city from the marrying business it proved the red-letter Sunday in the history of the marriage industry.

Very Low Rate Excursion Tickets to The Pan American Exposition, Buffalo, N. Y.
Via the Northwestern line are sold daily with favorable return limits. Direct connections at Chicago with fast trains of all lines to Buffalo. For further particulars apply to agents. JUST WHAT IT IS AND WHEREIN
BUFFALO BILL'S WILD WEST

DIFFERS
FROM ALL
OTHER
EXHIBITIONS

AND CONGRESS OF ROUGH RIDERS

A little editorial matter on an international subject. A few facts worthy of consideration. In the first place Buffalo Bill's Wild West is not a "show" in the general acceptance of that term, but an exhibition of world-wide resource and universal interest.

It is the first, the only, and must be the last of its kind because the class to which Col. W. F. Cody (Buffalo Bill) belongs consists of ONE. He has never had a double. Then, who can take his place?

His great exhibition is absolutely original and true to nature. It is the most intensely interesting and strangest entertainment ever organized or dreamed of. It is the only real object teacher history has ever had or recreation furnished. It is a veritable mirror of heroic manhood and the camp of the makers of a nation's history. It is an academy of equestrianism where Rough Riders graduate, and those schooled in hardships participate in the hazardous sports and pastimes of which the great plains and deserts are the natural playground. It is here that one sees the reality of imperishable deeds and feats of fearless skill, fashioned by necessity. The one presentment of grim-visaged war given under the banner of pleasure in the smiling face of peace. It is here that bravest men depict the deeds that have made them famous in warfare, life saving and humanitarian acts. Men who have faced death in all its forms and successfully contended with opposing forces and fearful odds. Of such elements is the Wild West composed. Its varied features embrace, realistic battle scenes, martial pageants, dazzling reviews, savage displays of frightful war and foray. All the latest episodes of national and international events are here depicted. The allied powers of the world are faithfully represented. Boers, Britons, Cossacks and Bedouins ride side by side.

Can you beat it? No, the world will never see its like again. And best of all, everything it presents is realism itself. No made-up mummies or crafty subterfuge. Every horseman is the hero he represents. The art he employs is the lesson of a life. The garb he wears is the uniform of the nation or tribe which he represents. The very bridle that curbs the neck of a prancing steed is of regulation make and pattern, and will stand the closest scrutiny. And at the head of this mighty host rides the originator upon fame's warpath, the last of the greater scouts, to whom our army's safety was entrusted, Col. W. F. Cody (BUFFALO BILL). It will be here just as represented. The day and date is fixed. See the Grand Street Cavalcade and Review of the Rough Riders and convince yourself that all we have said is true. The admission to this marvelous exhibition is 50 cents; children under 9 years 25 cents. Reserved seats 50 cents extra and may be secured on the morning of the exhibition date at the usual place.

JANESVILLE Be'oit road & Eastern Ave. **ONE DAY ONLY TUESDAY JULY 23**
SEATS ON SALE DAY OF EXHIBITION AT THE PEOPLES DRUG STORE, MILWAUKEE & MAIN STREETS.

LATE TELEGRAPHIC NEWS

SEE LAKE STEAMER BURN

Witnesses Fear All Aboard
Perished in Storm.

BOAT STRUCK BY LIGHTNING.

Disaster of Great Proportions Possible
in Green Bay—Menominee Sends
Tug to Rescue, but Blazing Craft Sinks—
Lightkeeper Sends Report.

Menominee, Mich., July 22.—Within plain sight of Menominee but too far away for human aid to be extended in time, a lake vessel burned to the water's edge and sank early in the morning. All on board the ill-fated craft perished. It is supposed, but whether from flames or in the waves of Green Bay is unknown. A severe electrical storm was raging and the boat was struck by lightning. The number of those whose lives were lost is a mystery. It is feared, however, that many persons met death, for though the identity of the vessel could not be established it is believed that a large steamer was destroyed. The craft, however, may have been a lumber vessel from Chicago or Milwaukee. All Menominee's shipping interests were aroused and alarmed at 4:30 a. m. by the report that came from Government Light Keeper Young. This report announced that a ship was on fire in Green Bay about seven miles southeast of Green Island. There was a scurrying to the water front and a simultaneous rush for a tug to go to the rescue. Through the brightening dawn the blaze of the roaring flames on the fated vessel was plainly perceptible. Dense clouds of smoke, too, rose above the tongues of fire and curled away in the strong wind. Now it appeared as if the yellow streaks were climbing up tall masts and again they seemed to be creeping over gigantic framework as though consuming the cabin of a big steamer. Straining eyes at times perceived, or the excited watchers thought so at least, vague forms of living beings moving upon the blazing craft. This was probably the result of overwrought imagination, for the vessel was too far off for such a sight, even had the truth been known. But steadily the volume of flame and smoke increased. Excitement grew almost to frenzy among those who looked on helplessly while the authorities were doing their utmost to send speedy aid to sea. The alarm spread across the Menominee river to Marinette, Wis., and caused excitement there among those especially whose friends were absent on lake trips. Despite the early morning hour the dock was crowded when the fire tug Menominee steamed out into the bay to succor the imperiled craft. Slowly the people saw the flames go down. The fireboat was sent ahead at all possible speed. Before it reached the scene the blazing boat went down and out of sight.

Three Lives Lost in Lake.
Chicago, July 22.—Three lives lost in the waters of the lake is the record of the day. The dead are: Arthur Deasey, 19 years old, drowned at Sixty-seventh street beach and body recovered. The dead man's home is in Waukegan. Louis Montgomery, 25 years old, living in Chicago; drowned at foot of Diversey boulevard and body recovered. William Reitz, 2-year-old son of George Reitz, drowned in Lake Calumet in overturning of a boat in which he and his father were riding; body recovered.

Ocean Liners in Collision.
Flushing, L. I., July 22.—The North German Lloyd steamer Weimar, Captain Forbes, which left Antwerp today for Adelaide and other Australian ports, by way of Southampton, Genoa and Naples, came into collision with the German steamer Caesar, from Ibrail and Galatz, inward bound for Antwerp. Both vessels were damaged. The Caesar was beached at Weilingen, near Flushing.

Steamer Strikes Rowboat.
Pewaukee, Wis., July 22.—At 6:30 p. m. the steamer Waukesha ran down a rowboat containing three Milwaukeeans. Two of the occupants escaped by clinging to the steamer. The third man, Paul Brown, was thrown into the water and sank immediately, and though every effort was made to rescue him he was drowned. The body has not been recovered.

Find Hot Knives in Pockets.
Wausau, Wis., July 22.—A peculiar phenomenon was noted during a severe thunder storm by the attendants at a church picnic. During the progress of the storm several persons pulled their knives from their pockets simultaneously and threw them upon the ground, asserting they were too hot to hold. It is supposed the knives became heated by the electrical disturbances in the atmosphere.

Cook's Duckshot Tablets.
Are successfully used by over 10,000 Ladies; are prepared by an old and experienced physician. Address: Cook's Duckshot Tablets, as they are the only safe and reliable medicine known. Price, 31¢. Mahe and Sharkey Draw.

Philadelphia, Pa., July 22.—One thousand persons turned out at the American league park to see Tom Sharkey and Peter Mahe in their wrestling match. Neither man displayed any remarkable ability in his new line, and when the catch-as-catch-can bout, with the collar and elbow hold, was started Referee Hermann Wolff, the ex-amateur champion wrestler, had to show the men how they were to go about this part of the game. The men wrestled on a mat placed near the home plate. Mahe was the aggressor at the start, but after trying half a dozen holds, all of which Sharkey succeeded in wrestling out of, Tom got a half Nelson on Peter and won the first bout in 7:10. Mahe proved more clever than the sailor in the second bout, which was collar and elbow style, and in two minutes and twenty-five seconds had Tom's hips and one shoulder touching the mat, which gave Mahe the bout. The third bout was Graeco-Roman style, but after pawing around for twenty minutes without any damage being done the match was declared a draw.

Saves Wabash Fast Mail.

St. Louis, Mo., July 22.—Passengers on the Wabash fast mail from New York to St. Louis escaped injury and possibly death through the bravery of Engineer Tom Bogle of the locomotive pulling the train. On the train were several Texans and St. Louisans and they joined hands in an effort to have the plucky engineer rewarded. The train was speeding westward, when at a point not far east of Decatur, Ill., the axle of the drive wheels of the locomotive broke in two. The engine, derailed, dashed along the ties. A high embankment was just ahead, but Tom Bogle refused to desert his post. He set the air brakes and worked his various appliances for stopping the engine, although almost sure death stared him in the face. He finally succeeded in stopping the train and preventing its plunge over the grade.

Delays Peary Relief Ship.

St. John's, N. F., July 22.—The mail steamer Home, which has arrived here from Labrador, reports that the coast is blockaded with ice floes, especially the northern part, where the floes are impenetrable. This will greatly delay the Peary relief steamer Erik, which counted upon calling at Turnavick, northern Labrador, and landing her last mail before entering the arctic circle. The Home had to abandon the attempt to reach her terminus in consequence of the ice.

Steal the Whole Show.

Erie, Pa., July 22.—Louis Wilson and Frank Johnson were arrested in this city charged with stealing a show worth \$25,000. They came here several days ago with a nicely equipped pony show and began to do business at once. The show was closed today by the arrest of Wilson and Johnson. The ponies, twenty-four in all, were recently taken from Buffalo. Dwight Manny and wife of Rockford, spent Sunday in this city.

STRIKERS ARE IN A CLASH

First Trouble in the Great Steel Conflict

DEVELOPS AT M'KEESPORT.

Disperse Men Who Had Gathered to
Picket Town Against Non-Union Men
—Colonists Return to Review Situation
Negroes Emerge to Wellsville.

Pittsburg, July 22.—A report has just reached here that the strikers at McKeesport, because of persistent rumors that workmen were to be imported, gathered to the number of 200 or 300 and picketed the town, holding up every one coming along and making him give an account of himself. No one was roughly treated, but the police force was called out and dispersed the men at 2:45 o'clock. About this time the railroad company began shifting freight cars across the river. The strikers again gathered, thinking the cars contained nonunion men, and made a dash for the cars. What may develop later cannot be predicted at this hour.

Negroes Due at Wellsville.

Wellsville, Ohio, July 22.—Trustee John Morgan, Vice President Chapelle and other officials of the Amalgamated Association were informed last night that 150 negroes from Anniston, Ala., would arrive in town at 2:45 a. m. to go to work in the sheet mills. The news quickly spread, and at midnight it was thought there would be a big crowd on hand to meet the newcomers. Chief of Police Lawrence Morrissey was also told of the matter and is preparing for trouble. The strikers say there will be no outbreak. Manager D. S. Brookman is not saying anything, but is getting the mill in shape. He offered a number of men extra inducements to come back. Every train and trolley car coming into the town is watched by the strike pickets, who are around the depots, hotels, mill entrances, etc. The approaches to the mill are lined with men. President of Council D. F. Steiner, it is said, notified Chief of Police Morrissey, Health Officer Warren and Sewer Inspector Leonard not to take sides with the strikers under penalty of losing their positions.

Faith Healer Is Arrested.

Aurora, Ill., July 22.—Dr. William Whitehead, Aurora's divine healer, was arrested by United States Deputy Marshal Gus Voss of Oswego for violating the postal laws and was taken to Chicago to answer the charge. Dr. Whitehead's offense does not seem to have been so very serious except from a legal point of view. He called one of his correspondents a hypocrite on a postal card. The offended recipient promptly called the attention of the postal authorities to the matter and the arrest followed. On investigation Dr. Whitehead acknowledged writing the card. He came to Aurora several years ago and conducted a faith home on Claim street.

Driven from Natal Farms.

Durban, Natal, July 22.—In consequence of the Boer raids into Natal and the support given the raiders by the republicans the military authorities have ordered all white men, with their live stock, foodstuffs and clothing to evacuate all farms between the Tugela and Sunday rivers. Any white man remaining in this section of the country after July 31 will be subject to martial law.

Incorporated to Make Steel.

New York, July 22.—The Allen Steel company has been incorporated in New Jersey with a capital of \$1,000,000 to manufacture steel.

HOSTETTER'S

KEEP YOUR BLOOD CLEAN

A Cross Clerk

Is a rarity. For the most part the young woman behind the counter is smiling and obliging, though her back hurts, her side pains, or her head throbs distractingly. The wonder is, not that a clerk is sometimes irritable, but that she so rarely shows irritation, when every nerve is quivering and she hardly knows how to hold her head up.

The nervous condition, headache and weakness, which are the results of irregularity or a diseased condition of the womanly organs, can be entirely cured by the use of Dr. Pierce's Favorite Prescription. It regulates the functions, stops enfeebling drains, strengthens the nervous system and promotes the general health of the entire body.

Sick women are invited to consult Dr. Pierce by letter, free of charge. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Having used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' during the past year," writes Mrs. Mattie Long, of Piquette Valley, Perry Co., Pa., "I can truthfully recommend the medicines for all female weakness. I have used several bottles of 'Favorite Prescription,' which I consider a great blessing for weak women. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home-treatment helped me wonderfully. Thanks to Dr. Pierce."

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

BILL BOARD WAR IS ON IN CHICAGO

Efforts Being Made to Prohibit the
Unightly Stands Around the
Parks and Streets.

A billboard war is on in Chicago and people all over the country are interested in the result. Unightly and uncleanly billboards were criticised and condemned by members of the various public art societies yesterday in the hearing before Master in chancery G. Fred Rush of the injunction proceedings brought against the city of Chicago by the Gunning system to restrain the authorities from removing this class of structures from points adjacent to the general thoroughfares under ordinances recently enacted by the council. Many novel points in law were brought out, and some of the testimony was admitted by the master under objection of the counsel for the billboard company.

The effect upon the sense of sight and health as well as upon the adjacent and surrounding property, was discussed in detail. Comparisons were made between the inharmoniousness of colors and the odors which are freely credited with arising from that section of the city which is given over to the stockyards. Both were held to be equally objectionable.

Mrs. Herman J. Hall, president of the Woman's Auxiliary of the American Park and Outdoor association, and chairman of the billboard committee of the Municipal Art League, was one of the principal witnesses in defense of the city's rights under existing ordinances.

"Have you noticed billboards throughout the city?" asked Counsel Byron Boyden for the art associations.

"Certainly," was the response.

"How do they affect you?"

"They have a decided effect upon me. First in the matter of health. It is impossible for me to see a huge, brilliant colored sign suggesting that thousands of people suffer from numerous ailments and advertising a certain remedy for these ailments without thinking that possibly I need medicine of that sort. This thought I hold to be an injury to my health, and at a time when I am out for recreation. However, I have no objection to billboards in their proper place, but their proper place is not around the parks, boulevards and residence streets which should be given over to rest and recreation.

When a Chicagoan is driving about the public boulevards and parks, for instance, with visitors, showing them the drawing rooms of the city, they find these huge billboards confronting them at every vacant corner and point along the line. The advertisements are suggestive of many things which should not be brought so forcibly to public attention.

"The memories of noble men are desecrated by attaching their names to the advertisement of wares having no connection with their lives or history. Those portions of the city that should be given over to all that the city beautiful could be made to be filled with huge and unsightly pictures of different wares. It is like putting the can of baking powder on the parlor table. In most instances the boards are so constructed that they have the appearance of long legged spiders."

"What is your principal objection to billboards?" asked attorney Henry W. Wolsey for the company upon cross-examination.

"That they exist at all," was the reply.

Mrs. Robert Hall Wiles, active in the Municipal Art League, the art department of the Woman's club, and several kindred organizations, was next called. Said she:

"These billboards are as objectionable to my eye as the stockyards are to my sense of smell. They obstruct the view of the boulevards and parks, which are maintained for the health and beauty of the city. They are so ugly and inharmonious in color that children grow used to seeing them, and consequently become careless about their own home, in the care of their rooms or the piazza of the house, for instance."

"Can you cite one instance where a billboard shut off a view from you where it affected you directly in any way?"

"I recently looked at a house in Cornell avenue. I desired to rent one. I would have rented the house had not an enormous billboard on the opposite side of the street shut off the view of the lake."

Miss Sarah E. Wiley told of her walk yesterday forenoon in Grand boulevard from Forty-seventh to Thirty-fifth street. This district she characterized as a "very nest of billboards, some of them two stories high." From Thirty-fifth to Thirty-ninth street, along Grand boulevard, Miss Wiley said the space beneath and behind the billboards was used as a dumping ground.

Robert C. Spencer, Jr., an architect furnished most of the trouble which arose between contending counsel. He declared that billboards were objectionable both to the personal tastes of individuals and the value of adjacent property. "The effect of these billboards," he said, "is to nullify the efforts of the city to beautify the parks and boulevards. They detract from the beauty of the city."

Pictures of Scotchmen devoid of pantaloons caused a long wrangle between the attorneys as to the proper raiment for a Highlander to wear. Pictures of scantily attired young women holding bottles of beer in their hands was also discussed. The hearing will be continued Wednesday morning at 10 o'clock.—Chicago Tribune.

Low Rates West and Northwest this Summer.

Via the North-Western Line. Excursion tickets will be sold to San Francisco, Los Angeles, Portland, Seattle, Salt Lake, Denver, and other Colorado, Utah and Pacific coast points, as well as St. Paul, Minneapolis, Duluth, Dakota, Hot Springs, etc., at

greatly reduced rates, with favorable return limits, on various dates during the summer season. Frequent fast trains, through sleeping cars, chair cars, dining cars. The best of everything. For dates of sale and full particulars inquire of ticket agents Chicago & North-Western Ry.

W. C. Whitney's Sister Threatens Suit.
Chattanooga, Ga., July 22.—It has just leaked out that Miss Whitney, sister of Hon. William C. Whitney, is responsible for the new elevator being put in the Erlanger hospital here. Miss Whitney was ill in the hospital, and her nurse, a woman from Cincinnati, was injured seriously by an old elevator breaking. Miss Whitney threatened the hospital trustees with a suit for \$20,000 damages if they did not put in a new machine. The elevator was put in at once. The hospital trustees counted themselves fortunate in compromising with Miss Whitney's nurse for \$1,000.

Horse Coughs Up \$230.
Southampton, L. I., July 22.—Elwyn Phillips, employed by O. C. Gardner, a baker in this village, lost \$230 a few days ago and was unable to find any trace of the money. The bills were in a roll held together by an elastic band. One of the baker's horses had a coughing fit today and coughed up the roll of bank notes intact. The rubber band held them securely, and the money was returned to Phillips. He believes that he accidentally dropped the roll from his trousers pocket, and that the horse picked it up and swallowed it.

Indian Driven from Island.
Ogdensburg, N. Y., July 22.—Jake Skin, the St. Regis Indian, who, backed by the chiefs of the Iroquois tribe, held Calquhoun Island in the St. Lawrence river nearly six months in defiance of the Dominion government, has been dispossessed and arrested. An armed force has been stationed on the island, guarding every point at which the Indians who claim possession might effect a landing.

Very Low Rate Excursion Tickets to the Pan American Exposition, Buffalo, N. Y.

Via the North-Western line are sold daily with favorable return limits. Direct connection at Chicago, with fast trains of all lines to Buffalo. For further particulars apply to agents. An illustrated booklet will be mailed on receipt of two cents postage by W. B. Kniskern, General Passenger and Ticket Agent, Chicago.

Old Buried Palace Found.

Los Angeles, Cal., July 22.—The land department of the Santa Fe railway was informed of the unearthing of one of the most ancient ruins on the American continent, near Durango, Cal. The Hyde Mercantile Company of Lynn, Mass., has been exploring the district near Farmington, N. M., in search of relics and curios. Through accident at the base of high cliffs the party discovered a palace containing upward of 1,000 apartments, some excellently preserved. Near the castle another ruin of 100 rooms also was discovered, showing that it must have been the home of subalterns.

Noted Kentuckians Dying.

Louisville, Ky., July 22.—Former Federal Judge John Watson Barr, who presided over the district court here for thirty years, is suffering from a paralytic stroke and may not recover. Judge Barr was a conspicuous union leader during the civil war. Former Congressman I. H. Goodnight, democratic candidate for United States senator, is believed to be dying of typhoid fever at his home at Franklin. The attending physician says he cannot recover. Mr. Goodnight served eight years in the lower house and is one of Kentucky's wealthiest men.

Excursion Tickets to Monona Lake Assembly at Madison, Wis.

Via the North-Western Line, will be sold at excursion rates, July 17 and 18, limited to return until August 3, inclusive. On other dates the certificate plan will apply. Apply to agents Chicago & North-Western Ry.

Excursion Rates to Milwaukee.

Via the North-Western Lines. Excursion tickets will be sold at reduced rates for the round trip, on account of Elks' Grand Lodge to be held at Milwaukee July 23 to 25. For dates of sale, rates, etc., apply to agents Chicago & North-Western Ry.

Very Low Rates to Boise City, Idaho.

Via the North-Western Line. Excursion tickets will be sold at greatly reduced rates, July 17, 18, 19, limited to return until August 31, inclusive, on account of International Mining Congress. Apply to agents Chicago & North-Western Ry.

Low Rates to Cincinnati and Return.

Very Low Rates to Chicago. Via the North-Western Line. Excursion tickets will be sold at greatly reduced rates for round trip, on account of B. Y. P. U. convention to be held at Chicago July 25 to 28. For dates of sale, etc., apply to agents Chicago & North-Western railway.

Reduced Rates to Delevan, Wis., via C. M. & St. P. Ry.

July 22nd to Aug 4th. Good to return until Aug 6th. Acc't Chautauqua assembly. \$1.05 for the round trip.

Excursion Rates to Chicago and Return via C. M. & St. P. Ry.

An Old Friend

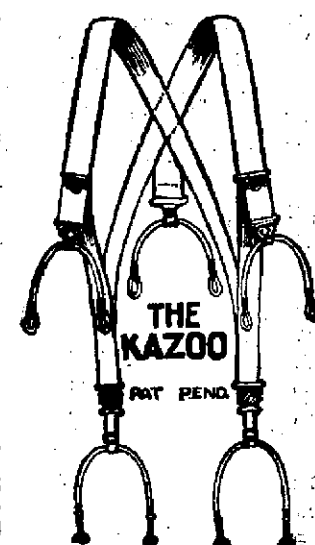

the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects, which it gets into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anaemic people will find S. S. S. just the medicine they need, for blood poverty and ily nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—it cures, is the secret of its success. When you call for S. S. S. don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

**Don't Experiment—
Take S. S. S.** for no sooner does it get into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anaemic people will find S. S. S. just the medicine they need, for blood poverty and ily nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—it cures, is the secret of its success. When you call for S. S. S. don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. SSS

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

THE KAZOO

What Is It?

It is the latest and most complete device in boy suspenders and hose supporters combined that has ever been brought to the attention of mothers who desire to avoid the annoyance of their boys' hose coming unfastened or hose supporter giving out continually.

It is made of the very best and strongest material, using rubber cord of 72 strands, which outwears any elastic web that can be produced. Also we use the Cyclone grip for the hose, which avoids any possibility of their coming unfastened or of cutting the hose. It is made adjustable, so you may hold the hose perfectly smooth. The suspender part buttons as does other suspenders, with same 72 strand rubber strand cord for ends which does not lose the elasticity as does the common web suspender, thereby avoiding the annoyance of having the buttons pull off because of the stretch being out of the suspender, as this end holds its elasticity till worn out.

The prices on the Kazoo is only 50 cents and 75 cents, and the fact that they will outwear any other suspender or supporter by great odds, makes them the most economical article ever offered in this line. They are made in sizes from 4 to 14.

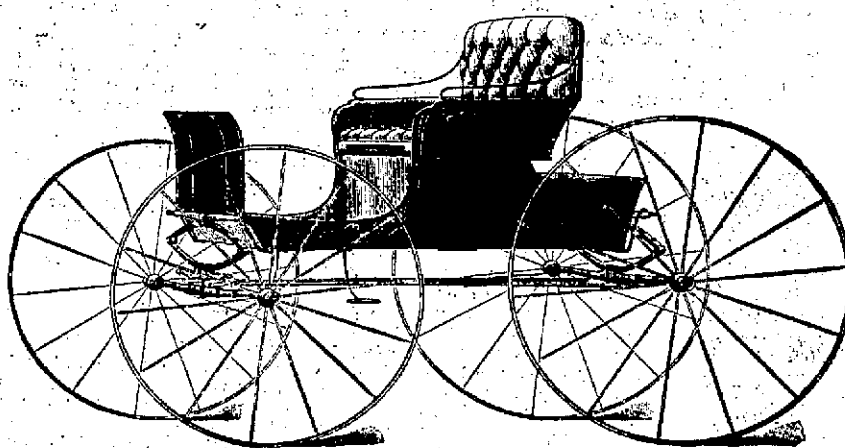

Do not economize by allowing your boy to wear common elastic around the limb, as you endanger the health by stopping the circulation and increase the doctor bill.

FOR SALE BY—

T. J. ZIEGLER,
